FOR LAST-MILE

MRF
SHAPING STEEL SOLUTIONS

N3XT

At MRF, we understand the importance of the last mile in current logistics. That is why we have developed N3XT, a product line specially designed to meet the specific needs of urban delivery.

Ergonomic and efficient solutions

Components that simplify logistics operations, adapting to any type of box, ensuring impeccable sealing and quick opening and closing.

Lightweight and durable

All our components are manufactured from high-quality stainless steel with optimized thicknesses to minimize vehicle weight while ensuring safety and durability.

Simpler, faster, and safer loading and unloading

- Flush closures, with no protrusions, for a flawless finish and safer vehicle maneuverability.
- Versatile hinges for dry or refrigerated cargo, with a long service life.
- Door holder without manipulation to reduce handling time.

Embrace the change with
N3XT from MRF

Contribute to a more agile,
secure, and efficient
urban transportation
